PROFIL

Full-Stack Developer | Node.js | Java | React | DevOps | Docker | CI/CD | REST APIs

Full-Stack Developer avec plus de 4 ans d'expérience dans la conception d'applications web et mobiles performantes. Solide maîtrise du développement backend (Node.js, Java Spring Boot), frontend moderne (React, Next.js), architectures REST, Docker, CI/CD et déploiement cloud. Expérience dans la conception d'applications maintenables, scalables et orientées objet, avec utilisation de Git, pipelines CI/CD et intégration d'APIs et outils d'intelligence artificielle. Reconnu pour son autonomie, sa rigueur et sa capacité à travailler en équipe dans des environnements Agile.

EXPÉRIENCES PROFESSIONNELLES

Laser sarl, web and mobile development

02/2024 – present

Bafoussam, Cameroon

- Développement d'interfaces **web et mobiles responsives** avec Next.js et React Native (approche **mobile-first**).
- Création de **dashboards utilisateurs** (suivi, historique, notifications).
- Intégration de **systèmes de paiement** et APIs tierces.
- Amélioration de l'expérience utilisateur (+30% performance).

Ocean Innovation Center, Développeur web et mobile

04/2023 – 02/2024

Douala, Cameroon

- Développement d'une application mobile interactive avec React Native & Expo.
- Implémentation de **push notifications** (Firebase).
- Amélioration continue de l'UX via itérations fonctionnelles.

DCE (Doho Consulting & Engineering), Full-Stack Consultant

08/2022 – 12/2024

Douala, Cameroun

- Développement d'interfaces **React.js** connectées à des services backend en **Spring Boot**.
- Mise en place de microservices et optimisation des performances applicatives.
- Automatisation des déploiements avec Docker Compose et CI/CD.

Sarki Money Contribution, internship

07/2022 – 10/2022

Galim, Cameroon

- User support on office and messaging tools
- Troubleshooting and maintenance of the computer park
- Participation in network management (cabling, hardware, security)

FORMATION

Software Engineer, Institut Africain d'Informatique

2023

Computer Engineering option Software Engineering

Yaounde, Cameroon

Baccalauréat D, Lycée bilingue de Galim

2020

Galim, Cameroun

COMPÉTENCES TECHNIQUES

Front-End & Mobile (React.js, Next.js, React Native (Expo, CLI) | TypeScript | Tailwind CSS | Material UI | Mobile-first & responsive design | Expo natif modules) | **UX/UI** (Figma (collaboration développeur / designer) | User-centric design | Performance & accessibility) | **Backend & APIs** (Node.js, Express.js | Java (Spring Boot) | GO | Firebase | REST APIs | Mobile Money API (MTN MoMo) | Object Oriented Programming (OOP) | Design patterns | Clean architecture / MVC / Microservices | Scalable backend design) | **Tools** (Git (branching, merge, rebase, pull requests, code review), Docker (Compose), CI/CD pipelines (GitHub Actions / GitLab CI), Firebase Cloud Functions, Docker / Docker Compose) | **Soft Skills** (Agile / Scrum workflow | Team collaboration | Technical discussions | Code review participation) | **AI tools integration** (OpenAI API, automation, prompt engineering, AI workflows)

RÉALISATIONS SÉLECTIONNÉES

- Transfergratis.com** *🔗*, Money transfer website 07/2025 – 07/2025
Next.js + Tailwind CSS + AWS (EC2, S3, CloudFront) + SEO Optimization
- Built a responsive file transfer web platform using **Next.js**.
 - Focused on **SEO best practices** and **performance optimization** (Lighthouse score 95+).
 - Deployed on **AWS (EC2, S3, CloudFront)** for scalability, speed, and reliability.
- Africa AI Forum** *🔗*, Official Website & Community Platform 09/2024 – 12/2024
africaaiforum.org *🔗* Next.js + Tailwind CSS + AWS Deployment
- Developed and optimized the **official platform** for the Africa AI Forum, a non-profit organization promoting ethical and inclusive AI across Africa.
 - Implemented **SEO best practices** and performance improvements to boost visibility and accessibility.
 - Deployed on **AWS infrastructure** for scalability, reliability, and global reach.
- Gesco app** *🔗*, School management application. 08/2022 – 12/2023
React Native (Expo) + Java Spring Boot + MySQL + Redis + Docker
- Developed mobile frontend using Expo and TypeScript.
 - Integrated secure backend API built with Spring Boot.
 - Deployed to Android and iOS platforms.
- My collector**, Mobile app for daily collections 08/2022 – 10/2022
App React Native + Firebase + MTN Mobile Money API
- Designed and developed a mobile app for managing financial transactions.
 - Integrated Mobile Money API for secure payments.
 - Implemented cloud storage and push notifications.
- Sarki-web-app** *🔗*, Account management web application 2022 – 03/2022
React Native + Firebase + Material UI
- Integrated Mobile Money API for real-time transactions.
 - Deployed and maintained production-ready applications.

LANGUES

Français – Proficient

English – Competent

INTÉRÊTS

Football

Football – Former captain of the bilingual high school football team in Galim
